Geotagged photographs of Alternate sources of energy

Solar energy panel of 20KW capacity is installed on roof top of the college. Purchase value is around 20 lakhs.

Solar Light Panels in the college campus:

Solar Water Heaters in girls' hostel in college premises:

- College has a full fledged plan to save electrical energy.
- Electric Maintenance committee is constituted to look after the maintenance and minimum use of electricity.
- Save energy boards have been displayed all over the college campus particularly where there are switch on/off boards.
- Separate main switch off board is installed for every individual section of the college like hostel, library, administration block and various departments.

Geotagged photographs of energy conservation measures

* All the traditional bulbs have been replaced by LED Bulbs:

Management of the various types of degradable and non-degradable waste

Waste Management systems of the college:

College did some agreements with agencies for waste disposals. The college has also constituted the 'Green Audit and environmental audit committee' to look after the solid, liquid and e-waste management and other environmental issues. The committee sets out to identify the types of wastes, category of waste generators, how to collect, handle and dispose wastes. Few steps outlined below are identified for the waste management process.

Steps of waste management

➤ **Survey of waste:**

Primarily we identify sources of wastes and types of wastes generated in the college campus. Therefore, first step for waste management system is Waste Survey.

➤ **2. Sources of Wastes from where waste generates:**

The committee has prepared a list of places from where the wastes are generated in the campus.

1. Principal office
2. Administrative Office
3. Library building
4. Seminar Halls and Students Classrooms
5. Indoor sports hall cum Auditorium
6. College Canteen
7. Girls Hostel
8. Dining Halls
9. Hostel Kitchen
10. Hostel Grocery Stores Room / Crockery Store Room
11. Health Centre

12. Play Ground
13. Various Departments
14. Laboratories.

➤ **Types of Wastes and existing practice of waste disposal**

After finding the places from where waste is generated, the next step is to dispose the different types of wastes (wet, dry and hazardous waste) as per the plan mentioned in the table below.

Type of waste	Disposed at common waste bins Municipality use it for composting	Dumped in road side, and street corners / vacant plots	Send to Waste Pickers for recycling
Wet Waste – Degradable Waste			
Vegetable peels	✓		
Fruit peels	✓		
Rotten fruits and vegetables	✓		
Leftover food	✓		
Used tea / tea bags	✓		
Used coffee ground	✓		
Egg shells	✓		
Expired other food items	✓		
Mango kernel & any seed		✓	
Coconut fibre	✓		
Used flowers / dry flowers	✓		
Spoiled spices	✓		
Floor sweeping dust	✓		
Garden shrubs	✓		
Dry Waste – Non-degradable waste			
Soap covers / pockets / sachets	✓		
Empty shampoo bottles, Empty perfume bottles / containers of deodorants / shaving creams	✓		✓
Empty Chemical Bottles			✓
Milk covers	✓		✓
Used door mats/door mats			✓
Used tooth brush			
Chocolate wrappers	✓		
Butter wrappers	✓		
Used mop cloth	✓		
Ghee / oil pockets / cans			✓
Package / polythene covers / Plastic covers			✓
Newspapers / card boards			✓
cosmetics containers			✓
Styrofoam			
Broken stationery like used pens, pencil sharpener			✓
Empty cans of floor cleaners			✓
Kurkure / Lays packets	✓		

Sachets (of shampoo, creams etc.)	✓		
Bisleri kind of water bottles			✓
Used tooth paste tubes etc.	✓		
Metal tins, and cans (e.g Pepsi Coke cans)			✓
Small tubs like the ones used for yogurt, cheese, jam			✓
Hazardous Waste			
Mosquito repellent refill bottles/ Mosquito repellent mats			✓
Expired medicines		✓	
Tablet covers / Syrups bottles			✓
Any medical discard		✓	
Sanitary napkins	✓		
Children's diapers	✓		
Used razor / razor blades	✓		
Old batteries			✓
Fused bulbs / tubes / electrical items	✓		✓
Broken glasses / ceramics	✓		✓
Empty cans of toilet cleaners			✓
Expired cosmetics		✓	
Cockroach killers / spray cans			✓
Old printer cartridge / CDs	✓		✓
Waste generated at Laboratories after proper treatment		✓	
Old Electronic items / parts			✓
Pieces of wires, old chargers, old pen drives	✓		✓

➤ **List of e-waste: Non-degradable waste:**

1. CD/DVDs
2. Pen drives
3. Cables / Wires
4. External drives
5. Modems
6. GPS units
7. Thermostat flasks
8. Calculators
9. Dry cell batteries
10. Electronic scrap parts
11. Mouse / Key board such items
12. Speakers
13. PCs
14. Laptops
15. Printers
16. Air-conditioners
17. Freezers
18. Digital Thermostats
19. Fluorescent Lamps and tubes
20. Incandescent Light bulbs.

Solid Waste Management:

Wet Waste especially from kitchen & girls' hostel such as vegetable refuses, food scraps etc. are collected & Transported to **Vermicomposting plant'** for composting.

Basic principles of Dry Waste Management are 4Rs: Refuse, Reduce, Reuse & Recycle: Some waste is transported to the Municipal Corporation Beed for deposition as per agreement.

Segregation at source: Store biodegradable and non-biodegradable solid waste in different bins. Segregated solid waste being sent to Municipal corporation of Beed as we have a collaboration for the treatment of solid waste.

Degradable waste is Vermi compost plant

To,
The Hon'ble Chief Officer
Beed Municipal Council,
Beed- 431122.
(Cleanliness Department)

Sub :- Regarding the disposal of solid Wastes from our
college campus.

Respected Madam / Sir,

With reference to above cited subject, I would like to request you to college the solid waste of various departments and open spaces, drainage waste, from our college campus to dispose it properly and frequently as follows.

- 1) To collect & dispose the Garbage from east parking zone of college.
- 2) To clean & collect Drainage material ,sewage semi-solid material.
- 3) To collect & dispose properly Trees & plants leaves, solid garbage, branches of Trees etc.
- 4) To collect and dispose plastic bottles, carry-bags & other wastes from campus.
- 5) Spreading of fumigation & B.H.C. powder in and around college campus.

As per above information we are in need of help of cleanliness Department of Beed Municipal council Beed & cleanliness committee of our college for smooth work of the same from today to 5 years contract/ agreement with both offices & frequently visit of sanitary inspector and labours to the college for cleanliness is expected from municipal council, Beed.

Kindly do the needful in this regard and cooperate us for the same.

Thanking you,

Principal.
Principal
Mrs. K.S.K. Art's Sci. Cgmm.
College, Beed-431122

English letter Page No.66

Liquid waste Method:

Liquid waste is appropriately treated for minimizing its toxicity before being discharged into the sewer systems or dumped into land pit or burn it. Liquid waste is treated with chemical disinfectants, neutralized with appropriate reagents then flushed into the sewage system. Thus, liquid waste management includes procedures and practices that prevent discharge of untreated pollutants to the drainage system or to water bodies as a result of the creation, collection, and disposal of non-hazardous liquid wastes. Within a college campus, we have waste water treatment plant. After treatment, water is used to wash floors and other cleaning purposes.

e-waste Management:

Designate a room in the Campus which may be called 'Material Recovery Centre' (MRC). The discarded e-wastes from all the office blocks in the campus shall be sent to the MRC, and stored there until it is sent to e-waste recyclers. Electronic-waste from office can be discarded in two ways. One way is Extended Producer Responsibility (EPR). Under EPR manufacturers of computers, and other electronic items should take back end-of-life products. If some Producers / manufacturers want to appoint a 'Producer Responsibility Organisation', which - on behalf of manufacturers - collect, dismantle and recycle end-of-life products can do so. Institution is used such facility for the disposal of e-waste. The idea is demanding the producers to take back e-waste through the same channel they used for placing a products in customers hands.

Memorandum of Understanding for e-waste management Between

Department of Computer Science
Mrs.Kesharbai Sonajirao Kshirsagar Alias Kaku Arts, Science and Commerce College,Beed
And
P.C.Care,Beed

This Memorandum of Understanding (MOU) sets for the terms and understanding between department of Computer Science of Mrs.Kesharbai Sonajirao Kshirsagar Alias Kaku Arts, Science and Commerce College, Beed and P.C.Care Beed Tq.& Dist.Beed to work together for furthering co-operation, education & research in common interests of two institutions.

Purpose:

Both Department jointly agree in order to promote the following activities.

Our institution buys electronic products and computers from yours shop/ Concern on extended procedure responsibility (EPR). As per EPR, it is supposed that at the end product life, the supplier should take back the goods under the disposal of e-waste management.

Duration :

This MOU is at- will and may be modified by mutual consent of authorized officials from both department. This MOU shall become effective upon signature by the authorized officials from the **department of Computer Science** of Mrs.Kesharbai Sonajirao Kshirsagar Alias Kaku Arts, Science and Commerce College,Beed and **P.C.Care ,Beed Tq.& Dist.Beed** and will remain in effect until modified or terminated by any one of the partners by mutual consent.

Water Conservation

RAIN WATER HARVESTING: STRUCTURE AND UTILITY

➤ Introduction

As the scarcity of water is rapidly increasing everyday particularly during the summer season, the demand for water in the college campus also substantially increased. Therefore college has installed three rooftop rain water harvesting systems in the college campus.

➤ Design of proposed catchment area:

The catchment of water harvesting system is the rooftop that receives rainfall directly and drains the water system. The existing roof is made use of to collect rainwater. Therefore the rooftop is swept and cleaned regularly for collecting the water to its maximum purity.

From the design of the terrace floor, we calculated total rooftop area of our college.

System-1:	Area of the rooftop of hall number 55, 56, 57	= 3872 sq. ft.
System-2:	Area of the rooftop of hall number 58, 59, 60, 61, 62	= 5075 sq. ft.
System-3:	Area of the rooftop of girls hostel	= 3444 sq. ft.
Total area of proposed catchment		= 12391 sq. ft.

➤ Design of transportation system:

For transporting the rain water from the catchment area in this project we have used Polyvinyl chloride (PVC) pipes and fittings. For the collection purpose, we are using pipes ranging 2.5 - 3 inches diameter. A care has been taken that the first spell of rain is flushed out and does not enter the system. This is done since the first spell of rain carries a relatively larger amount of pollutants from the air and catchment surface. The water is transferred to the special kind of filters which removes the leaves, dust, small twigs and other organic matter. In case of system-1, filtered water is then allowed to flow into the bore well near boys parking slot. In case of system-2, filtered water is transferred into the bore well in the staff parking slot and in case of system-3 rain water from girl's hostel rooftop is transferred into specifically designed dug well near the bore well of girls hostel.

➤ Approximate amount of water percolated under the ground per year:

The average monsoon rainfall in the area is approximately 666 mm per year. From average rainfall and the total surface of rooftop catchment area for each system, we have calculated the amount of water percolated under the ground per year which is given as below.

- ❖ System-1= 2,32,000 litres of water
- ❖ System-2= 3,04,000 litres of water
- ❖ System-3= 2,06,000 litres of water

Borewell /Open well recharge:

Total area of the college campus is about nearly 3 acres, on that only area of 40% on total area was developed as academic zones and the balance area is about 60 % on total area was earmarked for greenery. The college campus depends on ground water for all its needs and the daily need of water in the campus is around 10,000 liters approximately. To compensate the mentioned daily need we had constructed 2 number of bore wells with different depths as per the sub soil water position and all are recharge regularly with harvesting and soak pits.

Construction of tanks and bunds

As the water crisis continues to become severe, there is a dire need of reform in water management system and revival of traditional systems. As a part of revival to traditional wisdom, in this institute we built 2 ground tanks to collect and storage the water for reuse on-site.

Waste water recycling:

In this institute, separate hostel is constructed and this is accommodating around 100 girls. Almost 3000 liters of water demand is for hostel for smooth functioning. Total water demands is being meet extract from ground water through bore wells and these are recharged with ground tanks and harvesting pits. Total waste water produced from these hostels treated with waste water treatment plant. The waste water after treatment is proposed to be utilized effectively for gardening purpose. This will incidentally drastically reduce the usage of fresh water.

Maintenance of water bodies and distribution system in the campus:

The college campus depends on ground water for all its needs and the daily need of water in the campus is around 10,000 liters approximately. The ground water is pumped into storage tanks located at different places in the campus. There are 8 overhead storage tanks in the campus. The water is distributed through well laid pipe network. Drinking water after treating in RO plant is supplied. Water for all other purpose is supplied through another set of distribution pipes. Entire distribution system is well supervised by maintenance committee to ensure that there are no leakages and wastages of precious water through joints and valves.

Green Campus Initiatives

- 1. Restricted entry of automobiles**
- 2. Use of Bicycles/ Battery powered vehicles**
- 3. Pedestrian Friendly pathways**
- 4. Ban on use of Plastic**
- 5. Landscaping with trees and plants**

Efforts for green initiatives are:

- On all events regular announcements are made to reduce the use of plastics as an awareness exercise
- Unwanted usage of power is discouraged in Institute.
- College celebrates 'No Vehicle day' on every second and fourth Saturday, no vehicles are allowed in college campus. Stakeholders are motivated to use bicycles.
- College supported students to use public transport by offering concessions for bus passes.
- Parking area is made Pedestrian friendly.
- Instruction boards for proper use of lights, Fans and electricity equipments displayed.
- Visit to the wind energy project of non- conventional energy.
- The solar panel of 2000 liter water capacity installed in the Girls hostel.
- Five solar flare light panels are installed.
- Constructed, repaired and cleaned little water storages nearby.
- Students and all stakeholders are strictly advised not to use any plastic and its materials (Not allowed).
- Minimum use of refrigerators and air conditioners for carbon neutrality.
- Office is advised for minimum use of papers and also motivated for reuse of rough papers.
- Many plants planted in Botanical garden and campus.
- PUC checking regularly.
- Posters/Signages on awareness on energy conservation and water conservation are made available in all relevant locations.
- Signages on awareness about preserving greenery in the campus are made available in all relevant locations.

Appeal to all stakeholders of the college

No Vehicles on every II & IV Saturdays

It is to inform you all the stakeholders of this college that, it is decided that, on every second and fourth Saturdays of the month, any automotive vehicle (other than electric vehicles) is not allowed in the college premises. Therefore, you all are suggested not to bring your vehicles on the prescribed days and also recommended to use bicycles to come to the college or by walking itself.

Being a responsible person, each stakeholder of the college has to shoulder the responsibility of not to use any automotive vehicle on these days so as to put one step ahead to reduce carbon emission.

सूचना

महाविद्यालयातील सर्व कर्मचाऱ्यांना सूचित करण्यात येते की, आपल्या महाविद्यालयामध्ये दुसऱ्या व चौथ्या शनिवारी **“NO VEHICLE DAY”** पाळण्यात येतो.

तरी दिनांक १७/१०/२०२२ रोजी चौथा शनिवार असल्या कारणाने कोणीही आपली वाहने महाविद्यालयात आणू नयेत. सदरील दिवशी महाविद्यालयाचे प्रमुख गेट वाहनांसाठी बंद राहिल याची नोंद घ्यावी.

प्राचार्य

Policies for the disabled friendly and barrier free environment for divyangjans:

1. To ensure that the design of the building such as ramp should be according to the disabled persons.
2. To ensure the accessible, gender-sensitive, safe, usable and functional washroom facilities should be provided for disabled persons.
3. To ensure the proper text and pictogram signage such as tactile path, lights, display boards, signposts are necessary.
4. The use of signage of male and female symbols, in accordance with local customs and standards, with raised outlines and bright color contrast will be more evident to everyone.
5. Learners with disabilities need to be adequately and appropriately supported in and out of the classroom with the right resources and assistance, teaching staff and college communities that are responsive to their needs.
6. Provision for enquiry and information: Human assistance, reader and scribe.
